SUMMARY

Full-Stack Software Engineer with **5+ years** of experience building scalable SaaS and multi-tenant applications. Expert in **NestJS**, **Laravel**, **AWS**, and modern DevOps. Published researcher with **Best Paper Award** at ICCIT-2021.

EXPERIENCE

Software Engineer | Cloudly Infotech Ltd.
Feb 2022 - Present

◆ **Instacircle - Community Management Platform**
- Architected **multi-tenant SaaS** platform with cloud-native infrastructure
- Designed APIs achieving **sub-200ms** response; implemented CI/CD reducing deploys by **70%**
- Built cross-platform mobile app; integrated Stripe, Twilio, Firebase

  NestJS · TypeScript · PostgreSQL · Redis · React Native · AWS

◆ **JEXCA - Alumni Management System**
- Built secure e-voting system & RBAC; deployed on AWS with **99.9%** uptime

  Laravel · MySQL · jQuery · AWS

◆ **Laneway - Education Management System**
- Developed enrollment & billing system, reducing manual processing by **60%**

  Laravel · MySQL · Bootstrap · AWS S3

Software Engineer | Freelancing
Jan 2021 - Present

◆ **BKMEA - Garment Industry Management System**
- Developed comprehensive management platform for Bangladesh Knitwear Manufacturers & Exporters Association
- Built member registration, compliance tracking, and reporting modules

  Laravel · PHP · MySQL · Bootstrap · jQuery

◆ **Food Shop - Online Food Ordering Platform**
- Built full-stack e-commerce platform with real-time order tracking and payment integration

  React · Node.js · MongoDB · Stripe

◆ **Nizeia - Threat Management System**
- Designed and built threat monitoring and incident management system with role-based dashboards

  NestJS · TypeScript · PostgreSQL · React

Junior Software Engineer | Logic Infotech Ltd.
Sep 2020 - Feb 2022

◆ **Hospital Management System**
- Built modules for **multi-hospital network**; integrated pathology & radiology APIs

  Laravel · Oracle · jQuery · Bootstrap

◆ **Document Management System**
- Developed secure file management with role-based permissions & directory sync

  Laravel · Vue.js · MySQL

KEY ACHIEVEMENTS

Multi-tenant SaaS	**70% Faster Deploys**	**20+ Projects**	**Award-Winning**
Thousands of daily API requests	Docker, K8s & CI/CD	Contributions & integrations	Best Paper at ICCIT-2021
