## PROFILE

Full-Stack Software Engineer with **5+ years** of experience building scalable SaaS and multi-tenant applications. Expert in **NestJS**, **Laravel**, **AWS**, and modern DevOps. Published researcher with **Best Paper Award** at ICCIT-2021.

## EXPERIENCE

● **Software Engineer**  Cloudly Infotech Ltd.  `Feb 2022 - Present`

> **Instacircle - Community Management Platform**
- Architected **multi-tenant SaaS** platform with cloud-native infrastructure
- Designed APIs achieving **sub-200ms** response; implemented CI/CD reducing deploys by **70%**
- Built cross-platform mobile app; integrated Stripe, Twilio, Firebase

  NestJS  TypeScript  PostgreSQL  Redis  React Native  AWS

> **JEXCA - Alumni Management System**
- Built secure e-voting system & RBAC; deployed on AWS with **99.9%** uptime

  Laravel  MySQL  jQuery  AWS

> **Laneway - Education Management System**
- Developed enrollment & billing system, reducing manual processing by **60%**

  Laravel  MySQL  Bootstrap  AWS S3

● **Software Engineer**  Remote  `Jan 2021 - Present`

> **BKMEA - Garment Industry Management System**
- Developed management platform for Bangladesh Knitwear Manufacturers & Exporters Association
- Built member registration, compliance tracking, and reporting modules

  Laravel  PHP  MySQL  Bootstrap  jQuery

> **Food Shop - Online Food Ordering Platform**
- Built full-stack e-commerce platform with real-time order tracking and payment integration

  React  Node.js  MongoDB  Stripe

> **Nizeia - Threat Management System**
- Designed threat monitoring and incident management system with role-based dashboards

  NestJS  TypeScript  PostgreSQL  React

● **Junior Software Engineer**  Logic Infotech Ltd.  `Sep 2020 - Feb 2022`

> **Hospital Management System**
- Built modules for **multi-hospital network**; integrated pathology & radiology APIs

  Laravel  Oracle  jQuery  Bootstrap

> **Document Management System**
- Developed secure file management with role-based permissions & directory sync

  Laravel  Vue.js  MySQL

## EDUCATION

**B.Sc. in Computer Science & Engineering**  `2020`
Pabna University of Science & Technology, Bangladesh
CGPA: 3.61 out of 4.00

## PUBLICATION

**Hybrid Feature Vector Space-Based Ensemble Machine Learning Approach For Sentiment Analysis on Amazon Product Reviews**
ICCIT-2021, Bangladesh
★ Dr. Fatema Rashid Best Paper Award, 2021

## KEY ACHIEVEMENTS

| | |
|---|---|
| **Multi-tenant SaaS** - Thousands of daily API requests | **70% Faster Deploys** - Docker, K8s & CI/CD |
| **Award-Winning** - Best Paper at ICCIT-2021 | **10+ Integrations** - Payments & notifications |
